### **PRIVATE EDUCATIONAL LOANS**

A Private Educational Loan is a form of financial assistance made available to students who need additional funding for educational expenses or for those students who need to satisfy a back balance. A loan approval is generally based on creditworthiness and ability to repay.

**The primary borrower for a Private Educational Loan is the student; however, most dependent students will require a cosigner.** The interest on most Private Educational Loans accrues while you are in school. Some lenders allow you to defer interest payments while you are enrolled in school at least half-time. You may apply online for these loans. **Each bank will offer additional information on their websites.**

### **SELECTING A LENDING AGENCY**

You have the right to select any bank, credit union, or lending agency you wish when applying for a Private Educational Loan and the Student Financial Aid Office will process any Private Educational Loan you are approved for. Be sure to see each type of loan that is available. An excellent website, [www.elmselect.com](http://www.elmselect.com), exists to enable student borrowers to review and compare the various loan options so they can select the loan program best suited to their needs.

### **APPLYING**

The fastest way to apply for a Private Educational Loan is to **submit an online application to the bank, credit union, or lending agency of your choice.**

### **MAXIMUM AMOUNTS**

With most Private Educational Loans, you may borrow up to the cost of attendance minus any other financial aid you are (or will be) receiving for the academic year. The cost of attendance includes tuition, fees, books and supplies, residence hall charges, transportation and miscellaneous expenses. For students who are in need of a Private Educational Loan to cover a back-balance, you may borrow up to the amount owed.

**As with any loan,  
careful consideration  
should be made in  
determining the  
amount borrowed  
as the loan must  
be repaid.**

### **REPAYMENT TERMS?**

Repayment terms vary for Private Educational Loans, some require interest only payments while in school, while others allow flexibility with repayment. Please review the terms and conditions of your loan repayment requirements when completing your lender's disclosure agreements.

### **SELF CERTIFICATION**

A Self Certification Form is a federal requirement for all students borrowing a Private Educational Loan. The lender will provide this form to you or it may be a part of the application process.

### **AFTER YOU APPLY**

After you apply online, the bank will complete a credit check and will notify you if you were approved or denied. If approved, the bank will notify you of the amount that you are eligible to receive. The bank will also notify the Student Financial Aid Office to have your loan certified if you are approved. You should also **contact our office when you are approved to expedite the certification process.**

### **INTEREST RATES**

**The interest rate on most Private Educational Loans is variable.** Interest will accrue on a Private Educational Loan if not paid while the student is in school. Please check the interest rates of each competing loan.

### **UPFRONT FEES**

**Upfront fees are usually charged when you receive the loan.** These fees may also be called "guarantee," "origination," or "administrative" fees. You should look for a loan that charges low or no fees.
